RWE Supply & Trading (Essen, Germany), is a leading European energy trading house for commodities in both their physical and derivative forms. As one of Europe's strongest competitors in the gas industry, we optimise RWE's entire non-regulated gas business. Our headquarters boast Europe's largest energy trading floor, complementing additional sites in Europe, the Middle East, Asia and the Americas.

To start in March or September 2015, we are looking for a

### **Your tasks:**

Our 18-month graduate programme offers you an in-depth insight into the energy trading business by rotating through various functions in six-month assignments. You'll be given the chance to seek out placements that play to your strengths and get a taste of international flair while working out of our main locations in Essen, Swindon or London.

By rotating through different departments, you will have challenging tasks and get to know various parts of our value chain – including the proprietary trading of energy commodities (power, coal, gas, oil), logistics, commercial asset optimisation, industrial sales and risk management.

You want to be challenged, but also supported? Besides training on the job, we will support your personal development with various soft skills, expert training sessions and networking events. We will provide as much support as you need, but the speed and direction of your career will be in your own hands.

**Your profile:**

Do you have a good Bachelor's or Master's degree, preferably in mathematics, physics, industrial engineering, economics or business administration? Can you demonstrate proficient IT skills and are you fluent in English? Then you could be the right candidate for our programme!

The application deadline is 14th October 2014. Please specify in your application for which base location you are applying (Essen, Germany or Swindon, UK) as well as your possible starting date (March or September 2015).

The recruitment process for the RWE Supply & Trading Graduate Programme will be supported by Brodtmann Consulting.

RWE is an equal opportunity employer and welcomes applications from all sections of the community.
